

For most of his 34 years in banking,
our Vice-Chairman has been a fish out of water.

L EON HILL HAS ENJOYED an illustrious banking career that spans more than three decades. It's a shame that for most of that time he was never really happy.

You see, for the most part, Leon was working in big, impersonal banks. The kind where the phone gets answered in a call center hundreds of miles away.

But Leon held on to a dream: to create a bank that would give businesses and families in Baldwin County the kind of service they deserve. Like 7am to 6pm banking every weekday. Local loan decisions. And a headquarters you can drive to without packing a lunch.

Today, Leon is back in his element, providing the kind of service you may have dreamed of, too. Come experience it at First National.
